Data Technology, Inc. Acquired By Gerber Scientific, Inc.

WILMINGTON, MA -- May 25, 2007 - Data Technology, Inc announced the completion of their acquisition by Gerber Scientific Products, a subsidiary of Gerber Scientific, Inc (NYSE: GRB). The transaction was finalized on Monday, May 21, 2007. Gerber Scientific, Inc. is a leading supplier of sophisticated automated manufacturing systems for sign making and specialty graphics, apparel and flexible materials, and ophthalmic lens processing.

Data Technology will be merged with the Gerber Innovations business unit of Gerber Scientific Products. The planned integration of the two companies' operations, networks and customer facing organizations has already begun to ensure a smooth transition and immediate value for its customers, suppliers and industry partners. Gerber Innovations offers market leading systems and solutions for the automated production of flat steel rule dies and coating blankets.

David H. Buckley, President and CEO of Data Technology, Inc., stated: "We are excited about the acquisition by Gerber Scientific, as their global service and sales organization will provide Data Technology with expanded support for its existing customers as well as a more global reach into a new customer base for its products. Like Data Technology, Gerber Scientific has a heritage for innovative products, breakthrough technologies and unmatched customer support. Working together we will continue to focus on meeting the needs of our customers in the packaging, die making and graphic industries."

Greg Wolf, President of Gerber Scientific Products, Inc., added: "The acquisition of Data Technology, Inc. is a positive step forward for Gerber. This addition will extend the Gerber product offering providing increased opportunity to serve our customers with high quality, precision manufactured products. Data Technology brings in a new dynamic in cutting and finishing solutions to Gerber, we look forward to making these technologies available to our customers world wide."

Steven Gore, Vice President of Sales & Marketing for Data Technology, Inc., commented: "This acquisition will open new and exciting doors for Data Technology as we continue to expand both our product offering and the markets we serve. Data Technology's existing and future customers will benefit from new products and services that will now be possible through Gerber's vast development resources and support organization."

About Data Technology

Data Technology is North America's only full-line manufacturer of specialty automated CAD/CAM cutting hardware for the design, die making and short run production segments of the packaging, die making and graphic industries. Data Technology is based in Wilmington, MA.
